What More?

As this course draws to a close ask you to consider, “What more?”

- What more can you learn?
- What more do you desire to learn?
- What more do you need to know to be successful in life and your career?

School has taught you to read, reflect and analyze content selected by your instructors. Yet, this does not resemble life beyond the confines of the classroom.

- How will you continue learning?
- What will you self-select to read?
- And, how will you apply that to your career and life?

For this assignment you are asked to find your own “reading” (article, Ted talk, podcast etc.), analyze it, and be prepared to discuss it in class.
