

DEPARTMENT OF HISTORY—WESTERN WASHINGTON UNIVERSITY

HIST 490/507: Digital Methods in History

Digital Exhibit Worksheet

Student Name:

Omeka Exhibit Link:

don't forget to add my email as a "researcher" under the "Users" tab in your omeka site dashboard

Exhibit Design:

What historical research question are you hoping to address with the exhibit? What is the overall narrative structure you chose? What are the main 2–3 educational goals that you have for your viewers? Who do you intend the audience to be for the exhibit, and did that influence the items that you chose to include or the background information you provided? (200–500 words)

Exhibit Building Challenges:

What aspects of building this exhibit were challenging? Were items easily locatable? Was it straightforward to find the details needed to satisfy the Dublin Core Elements (or were any elements difficult to locate)? (200–500 words)

Exhibit Comparison:

Find 1–2 digital exhibits on a similar topic to yours (include the site link(s) below). Describe each exhibit. What is the overarching narrative? How large is it (or how long does it take to view)? What types of material does it include? When were the materials collected and from where (e.g., what is its provenance)? (200–500 words)
