A sampling of course evaluation comments:

"It was extremely challenging to be the first, basically, to gather information for the artists and have this become a foundation for something like a catalogue."

"I loved learning about the mechanics of hanging a show."

"I loved this course and I feel that I learned a lot about not only museum theory but also it let me think about working in a museum and what that would entail. ... The exhibition was fun to arrange—very hard work, but rewarding."
